ECONOMIC

CUBAN SUGAR IMPACT ON USSR -- Moscow, Komsomol'skaya Pravda, 23 Sep 60

About fifty plants of the Ukraine, Lithuania, Latvia, Belgorodskaya, Kurskaya, and Voronezhskaya Oblasts and Krasnodarskiy Kray have begun to process Cuban sugar. The Odessa, Cherkassy, and Khutor-Mikhaylovskiy plants are being specially re-equipped and will work on Cuban sugar and produce refined sugar. It has been decided to construct a large sugar refinery for the processing of Cuban sugar in Ussuriysk, Primorskiy Kray.

There is more sugar now in our country. The season for sugar refineries will last not 5 months, as previously, but 9-10. This means that the workers will have more employment and the equipment of our sugar refineries will be better utilized.

CONFIDENCE IN STEEL QUOTA ATTAINMENT -- Peiping, Jen-min Jih-pao, 1 Oct 60, p 8

The working class is determined to attain an output of 18.4 million tons of steel in 1960, an increase of more than 5 million tons over 1959. This is not an easy task. Five million tons is almost equal to the total steel output of 1957. Nevertheless, when we say it, we will do it. Nine months in 1960 have passed, and the steel output of the first 8 months is already several million tons higher than the total steel output of 1958 and almost equal to the total steel output of 11 months of 1959. Our iron and steel workers have come up with a new promise to strive hard to exceed "18.4 million."

SCIENTIFIC-TECHNICAL

PRODUCE XI NEGATIVE HYPERON -- Peiping, Jen-min Jih-pao, 2 Oct 60, p 6

CPYRGHT

A group of scientists headed by Chinese nuclear physicist Wang Kang-chang from the Joint Nuclear Research Center at Dubna, Moskovskaya Oblast produced artificial Xi negative hyperon for the first time recently. Xi negative hyperon is an elementary particle with a negative charge. Xi negative hyperon was first observed in cosmic rays 8 years ago, but was never produced artificially until now.

CPYRGHT

The group of scientists which produced the first Xi negative hyperon included Soviet scientists Solov'yev and Khladnikanskaya, Chinese scientist Ting Ta-chao, Korean scientist Kim Hui-in, Vietnamese scientist Nguyen Dinh-tu, and Rumanian scientist Chai-hu-ech /Chinese transliteration of the Rumanian/.

CHINESE ACKNOWLEDGE POLISH AID IN SCIENCES -- Peiping, Jen-min Jih-pao, 28 Sep 60, p 4

CPYRGHT

In a reception for the delegation from the Polish Academy of Sciences on 26 September, Kuo mo-jo presented Chinese thanks for "the aid that Poland has given toward the development of our country's scientific affairs."

MILITARY

CHINESE MILITARY DELEGATION IN EGYPT -- Peiping, Jen-min Jih-pao, 28 Sep 60, p 6

CPYRGHT

On 26 September, General Chang Tsung-Sun, deputy chief of staff of the Chinese People's Liberation Army, arrived in Cairo leading a military friendship delegation. The general said that "...an intimate friendship has been built between the armed forces of the two countries."

SOCIOLOGICAL

EDITOR TO VISIT CHINA, USSR -- Beirut, Telegraph, 23 Sep 60, p 6

CPYRGHT

As'ad al-Muqaddam, editor in chief of the Lebanese newspaper as-Siyasah, left Beirut yesterday for the People's Republic of China at the invitation of the All-China Federation of News Workers. He will stay in China for 2 weeks and then go to Vienna to attend the World Press Conference. After that, he will visit Moscow.
